Re: Guardian Fiberglass, Inc. 4812 Tablers Station Road Inwood, WV 25428
Revision To Initial Notification of Applicability to 40 CFR Part 63 Subpart ZZZZ

To Whom It May Concern:

On August 30, 2010, I sent a cover letter to your attention and an Initial Notification of Applicability form advising that Guardian Fiberglass, Inc. at 4812 Tablers Station Road, Inwood WV, had one of three diesel engines that met the notification requirements of 40 CFR Part 63 Subpart ZZZZ. The confirmation of delivery shows the package was delivered on September 2, 2010. During a recent review of that notification, it was discovered that I had inadvertently listed the wrong model number for the generator that was subject to notification requirements. The model number for the diesel generator subject to notification requirements is Model 3456 and not Model 3406 as previously submitted. I have attached a revised Initial Notification of Applicability form to update your records. Sorry for the added inconvenience that I caused. If you have any questions, or need any additional information, please contact me at 517-630-2072 or by e-mail at donadams@bp.guardian.com.

Kind Regards,

Don Adams
Environmental Coordinator

Revised Initial Notification of Applicability^b

National Emission Standards for Hazardous Air Pollutants:
Stationary Reciprocating Internal Combustion Engines
40 CFR Part 63 Subpart ZZZZ

X Yes, I am subject to 40 CFR Part 63 subpart ZZZZ National Emission Standards for
Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines

NAICS code(s): 327993

Compliance Date: ☐ Existing source: May 3, 2013 X New/reconstructed source: upon initial startup

Note: The May 3, 2013 compliance date for existing sources applies to the following engine types:

- Existing non-emergency compression ignition (CI) stationary RICE with a site rating of more than 500 brake HP located at a major source of HAP emissions
- Existing stationary CI RICE with a site rating of less than or equal to 500 brake HP located at a major source of HAP emissions
- Existing stationary CI RICE located at an area source of HAP emissions

Company name: Guardian Fiberglass, Inc. _____

Facility name (if different): _____

Facility (physical location) address: 4812 Tablers Station Road Inwood, WV 25428 _____

My facility is a (please choose one): X Major source ☐ Area source

Owner name/title: Guardian Fiberglass, Inc. _____

Owner/company address: 1000 E. North Street Albion MI 49224. _____

^a This is an example of the type of information that must be submitted to fulfill the Initial Notification of Applicability Status requirement of 40 CFR 63, subpart ZZZZ. You may submit the information in another form or format, or you may use this form.

^b Initial Notification is due 120 days after the effective date of the rule or 120 days after you become subject to the rule

Owner telephone number: 517-630-2072 _____

Owner email address (if available): _____

If the Operator information is different from the Owner, please provide the following:

Operator name/title: Guardian Fiberglass, Inc. _____

Operator telephone number: (304)-267-6085 _____

Operator email address (if available): groverthomas@bp.guardian.com _____

Brief description of the stationary RICE at the facility, including number of engines and the site-rated HP of each engine: Guardian Fiberglass, Inc., Inwood WV plant, has one CAT Model 3456 diesel engine, 610 HP, used for emergency use that is subject to the notification requirements of 40 CFR Part 63 subpart ZZZZ. Guardian Fiberglass has two other diesel engines, used for emergency or fire water at this location, that are not subject to notification requirements. _____

I hereby certify that the information presented herein is correct to the best of my knowledge.
